

PREMIER RETICLES

The **Heritage** line has been specifically engineered to meet the high standards and extreme demands of the military and law enforcement sniper, which also makes them ideal for long-range target and varmint shooters who expect more from their optics. Built with first focal plane reticles for better sighting performance and offering four choices of reticle designs, you are sure to find a combination that will suit your needs. Available in two magnification ranges, Heritage scopes come standard with the following features:

- 5X ratio magnification and field of view
- Locking ocular to prevent accidental eyepiece adjustments
- Integrated illumination (locking) and parallax adjustment (Fig. 1)
- Leverlock™ dial retention for tool-less re-zero (Fig. 2)

The **3-15x50 HERITAGE** is ideally suited for mid to long-range target engagements with an internal adjustment range of 34mrad/117moa. Elevation adjustments are available in 22mrad/75moa per revolution Single or 28mrad/96moa Double Turn.
